### TRIMMED BEEF BRISKET

9<sup>98</sup> LB.

COOKING ALTERNATIVE: If you just don't want to spend your whole day at the grill, here's a fail-safe, alternate method that will deliver similarly glorious results: Smoke brisket on grill until an instant-read thermometer inserted into the thickest part of meat registers 150-170 degrees, 5-6 hours. Wrap brisket in foil, place on a baking sheet, and cook in a 250-degree oven until meat reaches the same 195-205 degrees internal temperature, 4-6 hours longer. What's important is getting that smoky flavor into the meat, and 5-6 hours on the grill should do it. After that point, you're simply getting the meat cooked through.
